

FabLite portable kiosks are unique in style and easy-to-use. Choose the distinctive shape that best complements your product or message. Lightweight construction makes it easy to set-up, arrange, reposition and rotate FabLite to display different messages. FabLite portable kiosks are designed for use individually, grouped together in sets or layered with a backwall.

Set-up is tool free! The aluminum tube frame sections connect with push button ease. The sock style fabric graphic pulls over the frame and zips closed. FabLite effortlessly presses down onto a set of multi-functional baseplates.
